

Phosphate and Organic Removal

DOSHION PhoCarb is a special mixture of 2 of our highest selling medias. PhoCarb combines **AquaCarb** and **PhoSil Guard** in a 50:50 ratio. This is manufactured by Doshion for removal of Phosphates and Organics from aquariums. PhoCarb can be kept installed in the aquarium filtration system for extended amounts of time to work round the clock and maintain the quality of water in the aquarium. This media does not have any adverse effects when used for extended periods.

The Characteristics of Doshion PhoCarb Media:

- Effectively works for removal of Phosphate and Organics from water.
- Helps in maintaining the water quality
- Also helps in COD reduction, Chlorine Removal and Colour Removal.
